Why Multiple Approval Processes Solution

We create a control mechanism that allows multiple controls under the umbrella of personnels by subjecting data changes made through Personnel Information Types to the Approval Process.

Fiori Information Type Update Approval Processes

We enable Human Resources to collect instant personnel data by subjecting the changes made by the employees through Fiori to their personnel master data, the Fiori "My-InBox" application or via the SAP Gui.

More **Information**

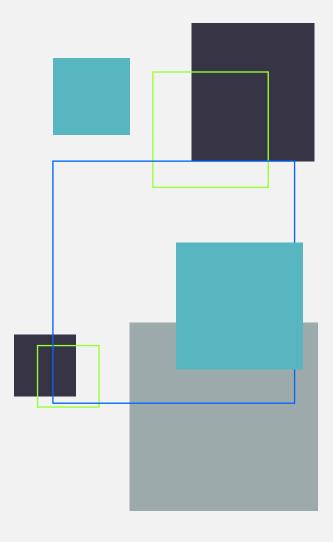

For detailed information and to benefit from our service, you can <u>contact us</u> via the contact link.

Rapidsol Approval Process Flows Solution

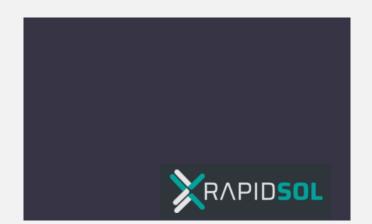

We create a control system in order not to allow any margin of error in possible changes in the information of the personnel. Our Approval Process Flows solution, integrated with Fiori, enables online permission from the authorized person to approve the change in the information type of the personnel.

"No space for any error.."

Setup and Carrying to Live

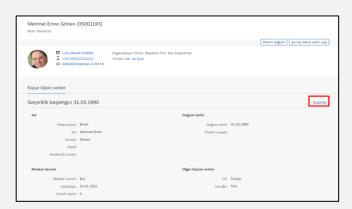

For the implementation of the solution package, a project management plan is created by our project management office, in which we can implement the fastest and healthiest application, and the studies briefly summarized below are carried out and the system is put into use.

Prerequisites

There are no prerequisites required for applications to be deployed. It is necessary to be a Fiori user only for Fiori reporting.

Control Cockpit

Reportings
