

## Why Execution & Alimony Payment Solution

You can enable the system to automatically follow the Enforcement Alimony processes with the enforcement alimony information you will define on the Company Personnel card.

The previous enforcement deduction amount is completed according to the sequence number you specified while entering the Enforcement Office information. While the system can deduct the remaining legal net amount from the record with the next sequence number, you have a solution that makes a difference with its features such as execution rate and interest amount.

Moreover, you can get instant reports containing all the data.
