

Why Fiori R&D Personnel Data Management Solution

We are creating an integrated structure where R&D employees of the company can make Project (PYP Element) based activity entries through Fiori applications. The relevant working hours on the basis of the entries are made directly in the month-end payrolls.

General Specialities of The Solution

With the Fiori R&D Personnel Activity Entry solution, we not only enable them to make activity entries, also establish an end-to-end structure where the payroll results calculated after creating an entry into the Payroll are accounted for.

Activity Entries Screen

Detailed Access

For detailed information and to benefit from our service, you can [contact us](#) via the contact link.

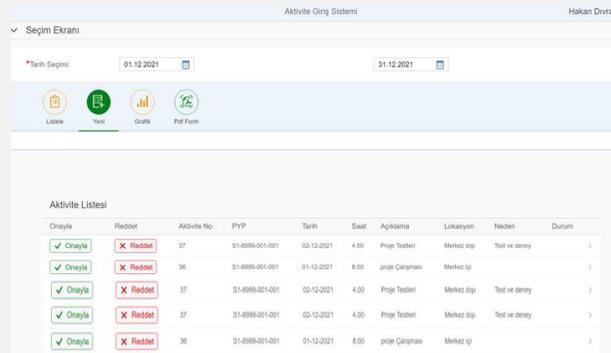

Rapidsol Fiori R&D Personnel Data Management Solution

All personnel with the SAP Username can access the relevant News and Announcement details with its visual on Fiori home screen.
