

## Why Personnel Budgeting Solution

We create personnel budget calculations with Payroll Simulation via user-friendly screens.

## General Specialities of The Solution

- ✓ You determine the start and end dates of the budgeting period.
- ✓ You can realize budget model work more than once and you can choose which version the budget work will work for.
- ✓ By using features such as Pivot Table (Staff List) in the display parameters window, you can use the budget results (wage types) according to whether you want them to be column-based or row-based.
- ✓ With the table entry of the data of the personnel who are not currently in the system and who are planned to be recruited in the future, you can also realize the calculations of the employees who do not have the system.

## Detailed Access

For detailed information and to benefit from our service, you can [contact us](#) via the contact link.

## Rapidsol Personnel Budgeting Solution

Our solution frees the user to budget, can also create inactive budgeting options for future personnel scenarios.
