Why Time Management Shift Planning Fiori Applications Solution

It enables shift change/shift assignment/overtime entry/overtime change operations performed on personnel in the SAP HCM system to be performed on a desired period basis for one or more personnels with the user-friendly screens.

General **Specialties** of The Solution

The Shift Planning application reads the time management responsible group data entered in the Organizational Assignment information type of the personnel. It allows the personnel connected to the user to be displayed on the screen when the application is logged and the users can perform operations only on the personnel they are responsible for. Transactions/changes made on the application screen are automatically reflected in the SAP system.

Detailed Access

For detailed information and to benefit from our service, you can <u>contact us</u> via the contact link.

Rapidsol Time Management Shift Planning Fiori Applications Solution

The solution we offer enables shift and overtime operations for personnels to be carried out from a single screen by using personnel time data and allows personnels to be cheked with a calendar view.

Time Managemnet Shift Planning Fiori Applications

SAP HCM Time Management

Shift Planning

"Easy Planning Shifts..."

Setup and Carrying to Live

For the implementation of the solution package, which has been worked on and is being used in many enterprises, a project management plan is created by our project management office, in which we can implement the fastest and healthiest application.

Prerequisites

There are no prerequisites required for applications to be deployed. It is necessary to be a Fiori user only for Fiori reporting.

Control Cockpit

With the Shift Planning application, changes can be made in the shifts of the personnels on a daily basis or within the desired date range.

When an personnel's shift is desired to be changed for a certain date, the current shift of the personnel can be easily replaced with another shift available in the system.
